Subject: A Message from the CIO: New Cloud-Based File Sharing and Storage Solutions for All Faculty, Students, and Staff

A MESSAGE FROM THE CIO

I am pleased to announce that over the next few months, the University of Miami will roll out three cloud-based data storage and file sharing solutions: **Box**, **Google Drive**, and **Microsoft OneDrive**. These three solutions will be available to all Faculty, Students, and Staff at no cost.

Box, Google Drive and Microsoft OneDrive will enable users to easily store and manage content in a secure online environment, while being able to share files and collaborate with individuals and teams. Detailed information about when these storage solutions will be available and how to access them will be communicated as they are each rolled out, starting with Box over the next few days.

We invite you to learn more about Box, Google Drive, and Microsoft OneDrive below:

| | | |
|--|--|--|
|  |  |  |
| <p>Benefits of Box:</p> <ul style="list-style-type: none"> - <i>File Space:</i> 25 GB of free storage. - <i>Collaboration:</i> Files can be stored in one secure place online, so you and your team always have access to the latest version. - <i>Special benefits:</i> Recommended solution for the storage of secure data; highly encrypted. Password protect links, set permissions, and get access stats. Automatic backup with 30-day file recovery. | <p>Benefits of Google Drive:</p> <ul style="list-style-type: none"> - <i>File Space:</i> Unlimited for native Google Docs files; 30GB for non-Google Docs files. - <i>Collaboration:</i> Real-time collaboration and editing within and beyond UM (Google Docs only). - <i>Special benefits:</i> Share with anyone, with several levels of access. Any device can be used to access files stored online. Real-time editing and collaboration capabilities. | <p>Benefits of OneDrive:</p> <ul style="list-style-type: none"> - <i>File Space:</i> 1 TB of free storage. - <i>Collaboration:</i> Enable editing permissions on any file. - <i>Special benefits:</i> Integrated email attachment functionality. File versioning so you can access previous versions of your edited documents. Share file links via email, text message, or by posting them to a social networking site, website, or blog. |

In addition to web access, mobile and desktop applications are available for all three of these solutions, allowing you to edit files offline and sync when you next connect to the Internet.

Please note that these solutions will be rolled out over the next few months and are not currently available to all audiences. Additional information about each solution will be communicated to you as they become available.

If you have any questions about these file sharing and storage solutions, please contact the UMIT Service Desk: Coral Gables/RSMAS Campuses: (305) 284-6565, itsupportcenter@miami.edu, or Medical Campus: (305) 243-5999, help@med.miami.edu.

Sincerely,

Steve Cawley
VP for Information Technology and CIO
